LIGHTING POLES & MASTS

light without limits

Road is essential to be safe and bright.

Today, road transport constitutes humans' daily routine and plays a significant role in social and economic terms. Take into consideration that a route even if you have the same trailhead and the same destination is never identical. Extrinsic factors such as weather can diversify a familiar and repeated route.

Lighting Poles and Masts are bilaterally located on the road to enhance road safety.

Due to the fully automated production process, our perennial experience, the use of cutting edge technology and the use of special computer design programs that are available in our Research & Quality Company department we guarantee:

- **Production flexibility**
- **Custom/Specialized solutions which are our key advantage**
- **Ability to manufacture products that ensure quality and reliability**

All of our products are accompanied with a CE Certification approved by Notified European Body. Moreover, our products are eco - friendly and are divided into categories such as:

- **Street lighting poles**
- **Sports & Area lighting poles and Masts**
- **Decorative poles**
- **Poles for other uses** (found in signaling, trams, advertising, etc.)

ZINCOMETAL Lighting poles and Masts are entirely manufactured in Greece!
